Custom PHP/MySQL Applications • Service Portals • Business Tools
Jamshedpur, Jharkhand, India

Company Profile & Service Brochure

rahultiwary24@gmail.com | +91 72097 37779 | raiodevelopers.com

Raio Developers is a Jamshedpur based web development company specializing in custom PHP/MySQL applications, government-style service portals, and digital solutions for local businesses. The company is founded and personally run by Rahul Kumar Tiwary, an IT professional and web developer, ensuring every project is handled end-to-end -- from the first requirement discussion to final deployment and post-launch support.

Our Services

Web Development

Custom PHP & MySQL websites built for real business needs, from concept to launch.

Portal Development

Custom dashboards, admin panels & multi-role systems tailored to your exact workflow.

Business Automation

Digital tools & automated workflows that simplify day-to-day operations.

Hosting & Deployment

Reliable deployment on cPanel or cloud hosting, plus ongoing maintenance support.

Why Choose Us

- **Reliable Delivery**
Complete, tested applications delivered on time -- not partial patches.
- **Local Business Understanding**
Hands-on experience with Jharkhand business & government-style workflows.
- **Ongoing Support**
Maintenance & hosting support for updates and new features after launch.

Selected Projects

Public Sewa Portal

Government services portal with wallet, PAN & multi-service integrations.

LoanPro System

Full loan management system with EMI calculator & borrower self-service portal.

Clinic Management

Patient portal & appointment slot booking system for a homeopathy clinic.

Stock Point

Three-portal paper stock management system for field agents, managers & admin.
